Education & Offers

Rutgers University-New Brunswick 2013- May, 2017

Bachelor in Computer Science

Bachelor in Mathematics (Finished)

The University of Hong Kong Fall 2015

Exchange student

Industrial and Commercial Bank of China, New York City August 2016

Network administrator

Relative courses

Data Structures; Computer Architecture; Design and Analysis of Computer Algorithms; System Programming; Programming Language Pragmatics; Graph Theory; Internet Technology; Signal and Image Processing by Discrete Fourier and Wavelet Transforms; Linear Optimization; Abstract Algebra;

Certifications

CCNP (Cisco Certified Network Professional) - Routing &Switching

Cisco License CSCO12597329 May 2016 to May 2019

CCNA (Cisco Certified Network Associate) - Routing & Switching

Cisco License CSCO12597329 November 2015 to May 2019

Experience

State Grid Corporation of China

Network Engineer Intern: February 2016 - May 2016 (4 months)

- Working on Juniper layer 2 firewall (Juniper SRX3400): Implementing security policies using Juniper Web Device Manager.
 - Keeping the network baseline and topology updated after changes by telnet/SSH accessing devices using SecureCRT.
 - Maintaining the proper functions of Info LAN, Info WAN, and LAN by administrating routers, layer 3 switches, and switches of Cisco (7609, 3750, 3560 etc.), Huawei (S7806, S7706, S3500 etc.), H3C (LS-7503E, LS-7502E, S3610 etc.) and Alcatel-Lucent (MES3404-M).
 - Committing weekly remote key nodes security scanning by operating NSFOCUS Web Vulnerability Scanning System (WVSS).
 - Periodically backup the network configurations of core components.
